

The company began small, with just eleven employees at a small capital of \$25,000 dollars. Starting off, Acer was primarily a main consultant for the use of microprocessor technologies and a distributor of a wide variety of electronic parts, but it began developing into a personal computer manufacturer. Global headquarters of Acer are located in Taiwan in the Hsinchu City.

Achievements

First company to introduce silicon nitride balls to the radio controlled car market First USA International Federation of Model Auto Racing (IFMAR) World Champion in 2002 was ACER Racing factory driver Greg Degani. First RC company to use supermodels

In their print ads (including July 2005 Playboy cover girl and Dancing with the Stars' Joann Krupa). First RC company to design a model car with titanium turn buckles and ceramic bearings (ACER Racing AR-8 pro 1:8 offroad car)
